Contents

Utilizing Aspergillus Fungi, a Significant Veterinary Pathogen, in Lung Cancer Treatment: A Novel Approach

Manufacturing Technology and Effectiveness of Corona Vaccines: A Bibliometric Review

Advanced Therapeutic Interventions Targeting Mycobacterium Tuberculosis

Evaluation of apoptosis and caspase-3 activity in EL4 cell line lymphoma using Moringa oleifera plant extract

Propagation Properties of a New Human Diploid Cell Line, RAZI-HDC, and Its Suitability as a Candidate Cell Substrate for Respiratory Syncytial Virus Vaccine Production in Comparison to MRC-5

Molecular identification and genotyping of Blastocystis spp. in children with clinical symptoms in southeast Iran using PCR-sequencing method

Oxidant/Antioxidant Status of Propolis Samples Obtained from Turkey

Unleashing Monoclonal Antibodies: Targeting Covid-19's Nucleocapsid Protein and Spike Antigens

Development of an ELISA for SARS-CoV-2 Detection focusing on antibodies against nucleocapsid protein

Comparative Genomic Analysis of Six Mycoplasma Gallisepticum Strains: Insights into Genetic Diversity and Antibiotic Resistance

Design, Development and Immunogenic Evaluation of a Novel LipL32 Recombinant Protein of Local Pathogenic Leptospira Serovars

Assessing the Diagnostic efficacy of a developed technique utilizing gold nanoparticles in the diagnosis of Cystic Echinococcosis via the ELISA method

Multiplex PCR amplification for the detection of Biofilm and extended-spectrum Beta-Lactamase resistance genes and antibiotic resistance patterns in uropathogenic E. coli

Investigating histamine levels, microbial and chemical properties in industrial and traditional drying methods of anchovy fish in Qeshm Island

The analysis of Norduz Sheep Mandible with DFA and PCA

Screening of biofilm-producing genes from Acinetobacter isolates obtained Covid-19 patients in ICU hospital section

Malignant Edema in Some Sheep Flocks of Iran

Evaluation of the Efficacy of Humoral Immunity Response of Killed Oil Adjuvant Escherichia coli Vaccine in Layer Chicken against Avian E. coli Serotype O78 Infection

Immunogenic Potential of Chitosan Nanoparticles Encapsulating Recombinant SlyB Antigen of Enterotoxigenic Escherichia coli (ETEC) in an Animal Model

Effect of purslane powder on the performance and immunity system of broiler chickens

The study of mutations and phylogenetics of the SARS-CoV-2 spike gene in population from Tehran province

Sensitivity of a Novel Lizard-Derived Cell Line (Z1) to Measles, Rubella and Respiratory Syncytial Viruses.

The effect of Spearmint, Oregano, and Thyme extracts on biofilm formation by Listeria monocytogenes, Escherichia coli O157: H7, and Salmonella typhimurium.

Molecular investigation and virulence determination of methicillin and vancomycin resistant clinical Staphylococcus aureus isolates

Mechanisms of miRNAs and their expression in gastric cancer

Comparative Evaluation of the Antimicrobial Efficacy of Anethum Graveolens Gel with Chlorhexidine Gel against Aggregatibacter actinomycetemcomitans, Porphyromonas gingivalis and Fusobacterium nucleatum- an in vitro study

Transcriptional factors of FAT/CD36, PTP1B, SREBP-1c and HNF4A are involved in dyslipidemia following Cyclosporine A treatment in the liver of male rats: The protective effect of curcumin

Emerging Challenges: High frequency of Antiseptic Resistance Encoding Genes and Reduced Biguanide Susceptibility in Antibiotic-Resistant Acinetobacter baumannii in Iran

Serological Studies of IgG and IgM in Response to SARS-CoV-2 Vaccination in Erbil, Kurdistan-Iraq

Effect of selenomethionine- enriched yeast on Hypothyroidism patients

The Prevalence of Fasciola (Digenea: Fasciolidae) Species in Livestock and Humans in Iran, A Systematic Review

Immune boosters and Immunotherapy in Allergic diseases and cancer management
